

Appln. No. 10/040,955

Attorney Docket No. 10541-821

I. Amendments to the Specification

Please replace the paragraph starting on page 6, line 19 of the specification with the following paragraph:

A fluid pressure chamber 119 is formed on two sides around an outer surface of the cam ring 105 in the inner cavity 107 of an inner surface on the outer ring 103 set in the pump body 101. Path 119a is an opening to the fluid pressure pump chamber 119, through a spool valve (not shown), to guide the fluid and control the pressure to swing the cam ring 105.
